# "MISSISSIPPI BOUND"

-"HERE WE COME MISSISSIPPI"-

The members of the camp need carry no more suspicions about our moving. We are Mississippi bound.This was announced by Captain Tisdale upon his return from Ft.Benning. The move will take place early next month from Carrabelle to Biloxi,Miss. This will be a welcome move to many o f the Alabama men as they will be nearer home. Florida men have some doubt about the move. It will be a great experience.

Biloxi is a large town and should offer a good place for recreation. We hope our camp will have the Gulf for a back yard again.

Already the box factory has functioned to a remarkable tune. The supply seargent says"he can't find time to eat but three meals a day. Bradford can't hold 'em down to,their old pace so the roads will soon be history on St. James island. Everyone moves, even Snakeyes.

We regret leaving district"H" & the personell of officers in the various camps,but we know there is another district waiting for us with lots of work. That is what CampP59 Company 1419 likes.

We hope our work here will always stand as a monument to an industrious Alabama-Florida camp of worthy young men under command and supervision of splendid officers.

************

# "Captain" Returns

WELCOME RUNS WARM IN CAMP

When Captain Tisdale returns from his furlough he will begin his additional six months of command in this camp.

We were sorry to announce his leaving,but now the entire camp joins in a hearty welcome back to the post of commander of Co.1419.

It is our hope that Captain Tisdale may have as much success in the future as he has had in the past.

We know that it has been the desire of Captain Tisdale to build his own camp. With this opportunity we members can look foreward to being in a first rate camp in our new quarters

************

THE CAMP IS PROUD

During the past month ten men have left our ranksto join the ranks of the fearing youth. We are glad as we know that they will be fitting themselves for the life to follow,and will make good citizens for our country.

************

Odds and Ends Column

Th e English class is going to help the Crier's new editor write - the paper from now on. These news - hawks are responsible for the "Odds and Ends" column which they consider a "Humdinger".

Captain Tisdale left camp Saturday to motor by Bus to South Carolina. The Captain will be missed by the whole Company during his twelve day absence. Mrs. Tisdale, who has been visiting in South Carolina for some time, will return with him .

Mail call is the most important event of the day at our camp. The mob of eager letter-seakers stampede from the Orderly Room to the Canteen with such determination and ferocity that Mallard and Rocket often have to run like Deer to cover.

Snake-eyes has resolved to give J.D.Williams a lesson in palmetto root extraction.

Ward Suter, one of our first-aids, left last week to go to school. His place was taken by Cecil Sumner. We all wish Suter well in his stud - ies. Although we shall miss Suter we feel that Sumner will make us a splendid "Doctor"/

It's too bad, and oh/ how sad, that O.K. Williams has to leave his Carrabelle Blonde.

"Bye Bye Blondie,
Don't you cry.
I'll be in Biloxi,
By and By ".

Wednesday night the slides on N orth American History were shown to the boys, as usual there was a large attendance. The slides were entertaining as well as instructive, and the boys seemed to enjoy them a great deal.

Mr. Gore's detail got all excited Thursday when four of the boys on the loghooks thought they heard a bear. They began to throw sticks into the bushes but never could get results. Nevertheless they still think it was a bear.

Friday night , at eight o'clock ,the boys will assemble in the Recreation Hall to see an interesting set of slides. These will take up the construction of the Panama Canal. They should be of special interest to us because this canal stands as a monument to the engineering skill of the United States.

Garret Smith,"Bee Expert", is going to start a class in bee culture Friday afternoon. The class had a serious setback when the first queen bee died, but Mr Smith, always equal to any emergency secured another from a freind. A great deal of interest is being shown in the class.

*****THE ENGLISH CLASS

Two of the men in the English class have special articles in this issue of the Crier. These men are Beach and Marks. In this class you will have your chance to write for the paper also. COME AND JOIN US.

Teacher: Mrs. Anderson .

FRYER FIGHTS FIRE

Wednesday morning,while breakfeast was being eaten, the camp was almost visited by dire disaster. O. K. Williams rushed in to tell Bulldog that his office was on fire.

Bulldog,after having eaten(3) three breakfeasts, was in no mood to play with fire. However, with Fryer, duty is duty. So he went out to save the important papers that he knew were in the office.

The fire was blazing merrily as he arrived. A hot time was had for a few cruchal moments. Bulldog went about the business of putting out the fire,and in a few minutes everything was under control. All was saved.

SNAKE-EYES CAN TAKE "IT"

It was decided that Snake-eyes was aman.Thursday night he received training through the belt line in correct order.. His habits are assuming better form. Thamks to the "Board of Education"

*******

**ANNUALS ARE HERE**

"Annual/ Annual for sale/" was the cry Thursday when the long waited for books arrived from the publishers.

"Why all this clamor?" was the question asked by one of the tractor detail. These poor boys are always last on everything due to the fact that they work until dark.

There were various answers to this question.

"Aw, you dumb mug/ This Sumatra bunch got their pictures in it"

"Of all things,old Pruit got his bean in it all by his lonesome"

"Oh dash it/ Here I get my pretty little picture book and look in it and there are Rip and Snake-eyes on both sides of me. I ain't gonna stand for it. Sell it for a quarter -- not a dollar and a half"

The tractor man walked on with a sigh, lamenting the fact that he had not been at camp to have his picture taken with Rip and Snake--eyes to be published in the great--est year book in the U.S.A.

SICKNESS OVERTAKES CAMP

PAUS CAFE

Sandwiches of all Kinds

Carrabelle Fla.

## SICKNESS OVERTAKES CAMP

Thursday 29 men were on the sick-book. This was the result of old "John Bunor", who had it out that the doctor would be late as usual on Thursday. The sick-book cowboys were greatly disappointed as the Doctor rolled up in time to send most of them to the woods on the chow trucks.

Several regulars heard bad news.

Sickness was better as the press is working next door.

*** ***

## J.D.'S WATERLOO

The famous Palmetto King, J.D. Williams, got a dose of Florida "tick-bites" Thursday. He was detailed with a group of men to carry cypress logs out of these dense, swampy woods. The brushes are so thick here that a pathaway has to be cut through them.

About two hours after the men started work they grew tired and naturally had to sit down to rest. Sitting down while you are on the job is very rare in this camp. J.D. "s characteristic, "Get another one", or" If you can't get it tell the man," had no effect. He looked like a organ grinder who has lost his monkey.

Shortly the men caught their breath and continued tugging at the logs.

Finally the long day ended, and Mr. Gore commended us on the large number of logs we had hauled

## TAKES LEAVE

Mullet Mattair starts a four day leave Monday. If you need any explanation see the Carrabelle news section.

## FISHING

Anyone wishing to go deep sea fishing see Fred Davis agent for

THE SKIPPER

## WOODS NEWS

Bill whitley is highly praised as truck driver, but Jones, a forestry driver, doesnot think so. Last Friday Bill with a few companions were quite a ways from the chow truck when the dinner horn blew. The ever alert bill noticed that Jones' truck was standing nearby and he dived into it and drove off. All the bows bowed. Bill hopes to do better next time.

Tipper is probably the most ambitious leader in the woods. His pet scheme is the one in which he plans to organize a ball club in Birmingham in the comming year. His latest hope on his ambition is that he and Pig Reynolds willbe made foresters when we are moved to Miss. Tipper believes in hitching his wagon to a star.

Red Johnson can out-shout and out-joke any man inthe woods including Pig Reynolds, who is no novice himself. All praise Red, who is a great worker as well as a story teller.

Snake-eyes in the future is to be made to work 30 min. out of every hour. If he lives through that, great things will be expected of the man inthe future. Bradford says, " Snake-eyes is as fat as a plow line". Who questions it?

The road running along aside of the big fire lane will be completely finished as soon as the bridge can be built. This adds an important link to the present system of roads.

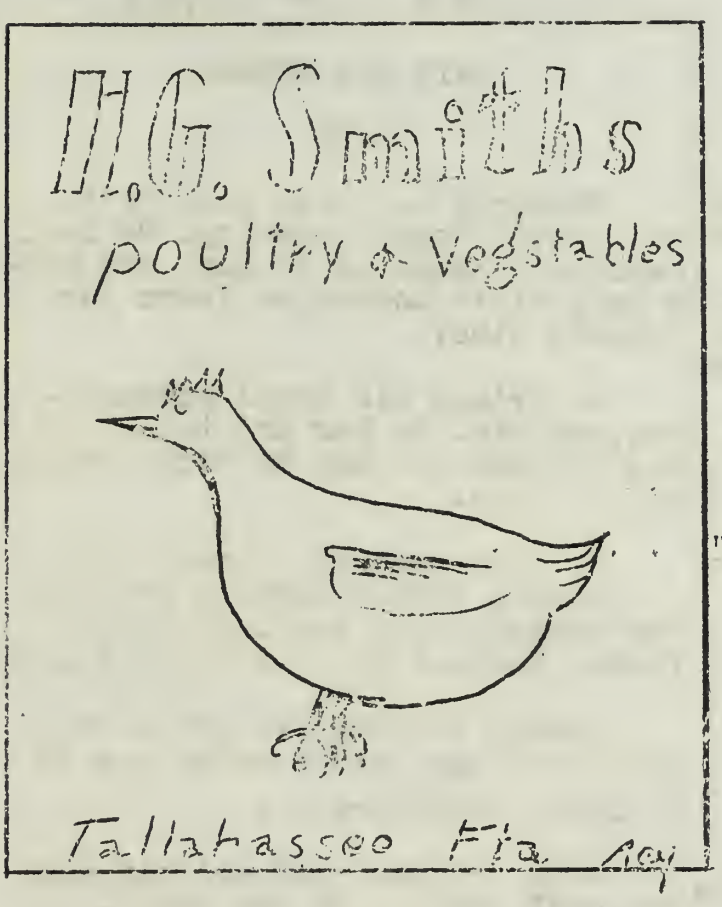
## CHURCH SERVICES

Sunday morning, at 9 A.M., there will be preaching by Rev. Farrell, of Carrabelle.

Sunday nite at 7:30 P.M. the Chaplain will be here and a song service will be held ***********



---TID * BITS ---

It has been reported to the Grier th at"Pelican" "T.O." Goodyear went to Carrabelle sober the other day. It was his first trip to town. He was very much impressed with the city.

R.C.Harden, forestry clerk, can't take it. Or perhaps it was because he was out with the old timers. He is going to start a day ahead next time.

"Hooky" Hartt, the vigilant night guard tells us that we are all not to mention him in the paper ag- . We promise not to unless we get something good on him besides his .

For the past week maps have been in great demand at the library. All the enrollees have taken to Geography.

Robert Reynolds wants it printed.

***NOTICE NOTICE***

Pig and I are not Brothers
A---Men.

*******

CARREBELLE NEWS

??????WHY??????

Is Rufus losing ground with -- Frank around. ?

Does Web Mc.Kinley not want the "particular"to know he is a C.C.C.?

Does Robert Reynolds face turn red when he takes a drink ?

Does Sidney Aderholt get the girls crushing him so.?

Has Red Smith such a blank face with such a brilliant mind?

********

Julian Mosley has a failing memory. Now who has he failed to wait on now?

Gaylard is in demand. All the young ladies are anxious to see -- his technique.

Carrabelle life is spurred by young Mae West. Ganet King has many copiers.

It is reported that the Lieutenant had a great time at the beach last Saturday. This accounts for his increased industriousness ,and extremely good humor this week.

The teachers are back and the supply seargent again takes to the road. He is quieter too.

"Jack Huey has become"snooty", sayCarrabelle girls. Go down and straighten it out Jack, We know you don't hate the Ladies.

**********

## LIFE SAVING COURSE

## BIG SUCCESS

Huett is Instructor

The life saving course has had three meetings. Twenty five men are out. Twenty of which expect to take the Junior Life Saving Exams.

Every Wednesday and Monday evenings we motor to one of the deepest lakes on the Island to carry on our work. Huett has shown that he knows his holds, so no one need be afraid under his care.

On Sept. 28 th we expect to have an examiner to give these tests. At this time the course will close.

******

## ASSISTANT ADVISER LEAVES

Mr. Sherril,who has spent the summer as assistant to Mr. Anderson, left Last Friday.

We deeply regret the loss of his valuable assistance in our camp. The class he taught wishes to extend their best wishes to him for the years work at college.

We hpoe that he may be with us again another year if possible.

**********

## CHAPLAIN VAN SAUN ARRIVES

## PAYS HIS SECOND

## VISIT

Chaplain Van Saun will be in camp until Monday morning. We feel especially honored to have him make us a visit before we leave our present site.

He brings his usual enthusiasum,and vim. He has not told half his stories nor has he tired of the C.C.C. life.

He will conduct a truck to Carrabelle Sunday morning for Sunday School,after the Carrabelle Pastor has had his service out here.

Sunday evening his presence will make our song service one to be looked foreward to.

Lets all turn out and not miss the best service of the month.

********

******FIRE DRILL ******

Skunk Inn is practicing fire drill before the lights go out each night.

The roof is no limit to a C.C.C. idea. Last night one man caught breath on a brace only to land in a bed with a board in his lap.
